QUOTE WORTHY OF MENTION

All the so-called "secrets of success" will not work unless you do.

FARM LIFE With one of our ewes prolapsed just days from lambing and despite our best efforts she deteriorated and was not going to make it. We decided the best thing was to put her out of her misery and end her suffering. Upon doing so we immediately performed a caesarean and two twin lambs were the outcome. Referencing my skills from my showy days, not only did I rug them, but double rugged them. They are now thriving all thanks to show horse skills!!!

Moral of the story - Showing horses saves lives :-)
