If buying yourself a new horse for Christmas.....buy the right one!

A funny story I have to share. Grant and I went to the Inglis Thoroughbred sales just gone. I was bidding away from the back of the arena on a lovely mare - she was no. 9 and I had inspected her before hand. The hammer went down and I was the winner. Very pleased with myself the lady came up to get my details. Then I heard the Auctioneer announce "The next lot is number 9". Confused I looked at the details and I had actually bought number 8! It turns out Number 8 is a stakes placed mare by Danehill. I happily took her home!

A great breeding season for WCF with our new Stallion and coloured mares.

Yes, Glacial Gold has proved him self to be very popular and competent in the breeding department as well as our two new coloured mares [Laughyoumay](#) and [Mata Biru](#) being in foal to the very fertile Profile In Style (USA).

Our clients have shared some of their foal photos with us which have more than impressed and due to the fact we did cut down on foal numbers this year due to the arrival of our 'human' baby we have included a clients foals segment on the [foals page](#) of the website.

The beautiful Frame-overo Thoroughbred Filly by Profile In Style (USA) x Natural Lover (Naturalism) owned by D. Bright

Quote worthy of mention

"Opportunities multiply as they are seized"
- Sun Tzu

Coloured Thoroughbred is Hollywood bound.

Painting Freedom's all white son, Arctic Bright is heading to Hollywood. Rex Peterson, a trainer who has conditioned horses for several major films, including Disney's recently released "Secretariat," said the fair skinned colt was exactly the horse he had been searching for. Our now ASB registered Thoroughbred palomino mare [Pretzel](#) is in foal to Painting Freedom and due April 2011.

"Oh darling just what I've wanted... a pair of super-proofed, non stick, mud gripped, steel-capped working boots!"
