Weaning with a difference.

WINNING COLOURS FARM was fortunate enough to secure the skills of renowned horseman Des Byrnes for the weanlings halter breaking and education this year.

Des has been breaking and educating horses for 52 years with his best mate Ian Bruce (whom incidentally just halter broke 70 of Singo's weanlings).

Des has taught all the babies to lead correctly from the shoulder, tie up, float load and many other skills that will benefit them and their owners throughout their lives.

To witness the young weanlings see a float and want to jump straight in it, is a wonderful thing!

Our weanlings are an absolute pleasure to handle and do anything with and we cannot thank Des enough for his work with them.

We do have a couple of these coloured thoroughbred weanlings for sale and one or two of them are well below \$10k!!

Showcasing Clients Foal

Had to share with you the stellar colt foal by Glacial Gold (USA) who is out of White Lion Fever (AUS).

This is 'Bonnys' second foal by Glacial Gold.

Owned by Bell Farm's Felicity Enriquez and Magic Millions Veterinarian Brett Warren.

Danehill line mares + Glacial Gold = MAGIC!

More foals by Glacial Gold can be seen [here](#)

FRANK'S BACK IN WORK....

Looking more like a horse out of a western movie than a racehorse, Framed In History is in pretraining for a bit more education and fitness before heading to the track.

Although not the fastest horse in town, Frank has so many more attributes to offer (as do so many wonderful thoroughbreds) and due to these he will be an exciting sire for the future for many. He may be home for some lucky mares this spring!!

Above: Frank the Wild Beast!!

We have now given Frank [his own page](#) on our [website](#). Good luck Framed In History, we love you. And don't forget you can follow Frank on [Facebook](#).

NOT TO BE OUTDONE BY HIS SON...

SYDNEY UNIVERSITY LECTURERS VISIT WCF

Dr Bianca Haase & Dr Natasha Hamilton of Sydney University ([pictured below](#)) visited WINNING COLOURS FARM as part of their ongoing study into genetics and in particular colour genetics of thoroughbreds. A great day in the field was had by all.

Above: Profile hanging at the Pub!

Below: Rockclimbing.

FUNNY ENDING...

SYDNEY POLO ALSO PAY A VISIT TO WCF

After sending several mares again to Glacial Gold this last season, it was a pleasure to welcome back Sydney Polo. Once again all their mares are in foal and we can't wait to see the end products.

**A woman was asked, “When you are a ripe old age, and had to pick one, which would you choose – Parkinson’s or Alzheimer’s?”
This wise lady answered, “Definitely Parkinson’s – better to spill half my wine than to forget where I put the bottle.”**
